

8-WEEK LIVE PROGRAM

Agile Project Management.

A hands-on, case-study-driven class where you learn Project Management and Agile the way real teams practice it — then walk away able to run Jira and Trello like a professional.

Live Weekly Classes

Case-Study Led

Real PM Tooling, Not Just Theory

Facilitated by Obomhense Idemudia (Jed)

Senior Product Manager · Agile Trainer & Coach

idemudiaoboss@gmail.com

Built like a real sprint — every single week.

This isn't a lecture series. Every week follows the same rhythm real Agile teams use: prepare, work the case, ask questions, apply it.

STEP 01

Pre-Read Sent

Reading material for the week is sent ahead of class, so you walk in already familiar with the topic.

STEP 02

Live Case Study

The live class works through a real-world case study built around that week's topic — not just theory.

STEP 03

Live Q&A

Every session closes with open questions — nothing leaves the room half-understood.

STEP 04

Direct Access

Mentorship access to your facilitator throughout the program — for questions between classes too.

MONTHS, START TO FINISH

Direct

ACCESS TO YOUR FACILITATOR

Weeks 1 – 4: The Project Management Core

Where every product and project professional has to start — the fundamentals, done properly.

APM-01

WEEK 1

Foundations of Project Management

- What a project is, and what a PM actually does day to day
- Project life cycle, roles & key terminology
- Waterfall vs. Agile vs. Hybrid methodologies

CASE STUDY: SETTING UP A PROJECT RIGHT

APM-02

WEEK 2

Planning, Communication, Cost & Risk

- Scope, estimation, dependencies & the critical path
- Gantt charts & building a realistic schedule
- Budgeting, RACI, stakeholder & risk management

CASE STUDY: PLANNING UNDER REAL CONSTRAINTS

APM-03

WEEK 3

Execution, Monitoring & Closure

- Running kick-offs & managing a team through delivery
- Tracking schedule, budget & quality
- Reporting progress & formally closing a project

CASE STUDY: EXECUTION TO CLOSE-OUT

APM-04

WEEK 4

Foundations of Agile & Scrum

- The Agile Manifesto, principles & values
- Scrum roles: Scrum Master, Product Owner, Dev Team
- Sprints, stand-ups, retros & the backlog

CASE STUDY: MOVING A TEAM FROM WATERFALL TO AGILE

Weeks 5 – 8: Agile in Practice

Where it becomes real — the tools, the metrics, and the leadership skills teams actually pay for.

APM-05

WEEK 5

Advanced Scrum with Jira

- Setting up projects & issue types in Jira
- Writing user stories & estimating with story points
- Backlogs, Scrum boards & sprint reports

CASE STUDY: RUNNING A LIVE SPRINT IN JIRA

APM-06

WEEK 6

Agile Project Management with Trello

- Sprint planning & backlog refinement
- Burn-down & burn-up charts, tracking progress
- Kanban boards for visual workflow management

CASE STUDY: VISUAL WORKFLOW MANAGEMENT

APM-07

WEEK 7

Agile Metrics & Reporting

- Velocity, burnup & burndown as performance signals
- Using metrics to drive continuous improvement
- Reporting effectively to stakeholders

CASE STUDY: CONTINUOUS IMPROVEMENT IN ACTION

APM-08

WEEK 8

Scrum Master Skills & Wrap-Up

- Servant leadership & team facilitation
- Coaching Agile teams & removing blockers
- Conflict resolution & program wrap-up

CASE STUDY: SERVANT LEADERSHIP IN ACTION

Built for people who need this to actually work.

No prior PM experience required — the program starts from the fundamentals and builds up to advanced, tool-based Agile practice.

Aspiring & Junior PMs

Learn the tools and frameworks to kickstart a product or project management career with confidence.

Career Switchers

Build job-ready, practical skills that stand out immediately in interviews and on the job.

Business Analysts

Round out your skill set with structured PM discipline and hands-on Agile delivery experience.

Founders & Freelancers

Learn to structure projects, manage stakeholders, and ship work on schedule.

Tech & Ops Professionals

Work better with product and engineering teams by speaking their language: sprints, backlogs, boards.

Anyone Ready to Commit

Weekly live classes over two months — built for someone serious about finishing what they start.

YOU'LL WALK AWAY WITH

- ✓ A working grasp of PM & Agile fundamentals, tested against real case studies
- ✓ Hands-on fluency in Jira and Trello — not just theory
- ✓ The ability to plan, run, and report on a real sprint end-to-end

FORMAT AT A GLANCE

- ✓ 8 live classes, 1 hour each, once a week, over 2 months
- ✓ Pre-reads before every class, case study during
- ✓ Direct mentorship access to your facilitator throughout

Obomhense Idemudia

"JED" · YOUR FACILITATOR

ABOUT THE FACILITATOR

Learn from someone doing the job, not just teaching it.

Jed is a Senior Product Manager and Agile leader whose work cuts across industries — fintech, healthcare, travel, and beyond — owning real product decisions, sprint execution, and cross-functional delivery, not just training slides. He has trained and mentored professionals across Nigeria, Canada, the UK, the USA, and West Africa, bringing practical Agile discipline and modern, AI-augmented ways of working into every session.

Cross-Industry Practice

Real Senior PM experience spanning fintech, healthcare, and travel-tech — not a single-domain background.

Trainer & Coach

Years of experience facilitating Project Management, Agile, and Scrum training across multiple continents.

Modern PM Toolkit

Hands-on fluency across the tools working PMs rely on daily — Jira, Trello, and AI workflows like ChatGPT & Claude.

What's included, and what's optional.

CORE PROGRAM

Everything Inside the 8 Weeks

Fully included in your program, no extra cost:

- All 8 live weekly classes, case-study led
- Pre-read materials before every session
- Hands-on practice with the tools working PMs actually use — Jira, Trello, and AI workflows like ChatGPT & Claude
- Live Q&A after every class
- Direct mentorship access throughout

OPTIONAL ADD-ON

LinkedIn & CV Optimization

Not automatically included — available if you want it, discussed separately:

- Learn how to optimize your own LinkedIn profile
- Learn how to structure and tailor your own CV
- Coaching on the process, not a done-for-you service
- Scope & terms agreed directly with your facilitator
